

Step 4: Request Closed Captioning

1. While in "Studio", select "View" on the video you would like to request closed captioning.

2. Navigate to the tab labeled "Captions" underneath the video. Select the language you would like to be used for Closed Captioning from the drop down menu, and then push "Request."

3. Once you push "Request", you will see that your request has been Queued. You will receive a notification from Canvas when your request has been completed. If you don't receive a notification, you can always check back in the video to see that it has been completed.
